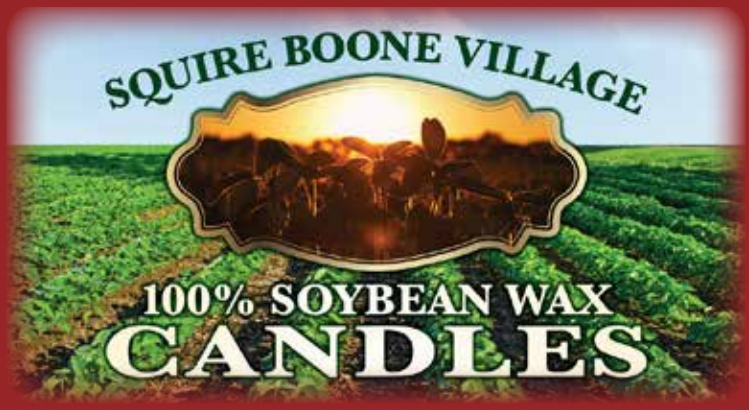
Benefits of Soybean Wax Candles

- Petroleum-free with 100% wood or cotton wicks
- Burns clean with no toxins
- A renewable, biodegradable resource
- Burns cooler and lasts 30-50% longer than a petroleum wax candle
- Decreases our dependence on foreign oil and supports American farmers

When petroleum wax is burned, up to 11 toxins are released into the air.

100% of the wax in these products is made of soybeans grown by farmers in America's Midwest. Hand-crafted and poured by artisans at Squire Boone Village in southern Indiana.



Mix your candle order and sell different sizes and scents of candles in the same display

A 100% Soybean Wax Candle Sign is available upon request to place at the top of your display.
